Materials:

5 - 6 Lilies

Green leaves or foliage of your choice

Craft or garden string

Decoration:

5 Wooden sticks

5 Acrylic diamonds

Instant glue

Wrapping:

2 Blue crepe or tissues paper

Roll of golden ribbon

Craft glue

Prep time: 50 mins

Servings: 1 flower bouquet

Equipment: Scissors or garden cutters, tray, paint brush, sharp knife, large working surface, vase

Method:

- Begin by crafting the decorations.
- On a tray or working surface, take your instant glue and attach the acrylic diamonds on top of the flat end of each stick, one by one; and set aside to dry.
- Take your crepe paper and cut two equal rectangles.
- Measure the golden ribbon to the length (longest side) of the crepe paper rectangles. And cut 4 pieces of ribbon.
- Glue the ribbons to each long side of the crepe paper, and set aside to dry.
- Cut away any excess ribbon to make sure the ribbon and paper align perfectly.
- For the bouquet, layout your lilies and green foliage on your working surface to easily start picking them.
- If needed, gently tear away any unwanted leaves or stems for the lilies.
- Pick a lily, then some green leaves or foliage. Add an acrylic diamond stick, and repeat until you have a nicely formed bouquet.
- Make sure each element is seen when looking at the bouquet from the side or the top.
- Shorten the stems of the bouquet a little bit with scissors or garden cutters.
- With the string, securely tie the flowers together.
- If stems need a bit more trimming, cut with scissors or garden cutters. But not too short.
- Wrap flowers in the blue and gold crepe paper.
- Complete by tying a gold ribbon, and secure a lovely bow to make it look gracious!

A perfect Gracious Bouquet to place in a vase, or to give as a gift to someone special. How did your Gracious Bouquet turn out? We'd love to see it!
